

# Smarty Pants Summer Academy

Explore, discover, create and have FUN!

Mon.-Fri. 8:00-4:30 • Ages 3-5 • 284-9009

## June 20-24: Botany/Gardening

Blooming into Summer...Botany/Gardening week filled with indoor and outdoor planting and creating. We will study the science of plant life starting with soil, shoots, and sprouts. This will be a fun week of hands on activities exploring the scoop on dirt, where it comes from, and learn how soil is bursting with life!

## July 25-29: Under the Sea

Grab your snorkel gear as we dive deep under the sea to create incredible under the sea artwork! This week is an exciting under water adventure exploring different sea creatures. Handprint crabs, starfish, sea horses, and jellyfish are some of the sea creatures we will create this week.

## June 27-July 1: Stars and Stripes Forever

Happy Birthday America! Celebrating the great USA will be the focus of this red, white and blue patriotic theme. Children will love the Fourth of July activities, star-spangled slime, fireworks art, crafts, games, poems and songs. Wave your flags and march along!

## August 1-5: Hawaiian Luau

A is for Aloha...Leis, Palm Trees, Pineapples and Grass Skirts. We will introduce children to the Hawaiian culture. This theme ties in well for summer, as it incorporates all elements of outdoor fun such as playing in the sand and water, eating tropical foods, making luau-style crafts and dancing to lively music. ALOHA!

## July 5-8 (closed on July 4<sup>th</sup>): Space is the Place

Blast Off! This week is all about space with planets, stars, galaxies and constellations. We will make our own telescopes and star machine to explore the night sky. We will have an out of this world experience!

## August 8-12: Things that fly

It's a bird, it's a plane, it's aviation week! Our preschool flight cadets will discover how birds, planes, blimps, hot air balloons, parachutes, and kites work. This week we will soar through the air and explore how things fly and how the wind helps things take flight. Come fly with us!

## July 11-15: Archeology

DIG IN! We will unearth knowledge about past civilizations and "dig" up some artifacts. Preschoolers will explore, excavate, extract, discover and imagine what the reconstructed object looked like. This is a great way to stretch the boundaries of your child's imagination and build up important critical thinking skills.

## August 15-19: Ahoy thar Matey

Come sail away with us while we build a pirate ship and set sail across the deep blue sea. Lots of land crafts, activities and pirate stories to spark creativity. These little Pirates will make eye patches, spyglasses, treasure maps, hunt for buried treasure and much more. Yo Ho, Yo Ho, a Pirates week for me! AARGH!!!!

## July 18-22: Super Science

Goo, slime, bubbles, and eruptions...This week is filled with interactive experiments and building our very own robot. These are hands-on individual and group activities. We guarantee to engage and expand your child's mind with indoor and outside activities to enjoy our beautiful summer.

## August 22-26: Outdoor Adventures

We will explore the great outdoors and turn our classroom into a campsite. Roasting marshmallows, telling campfire stories and learning how to be kind to nature. We will use a magnifying glass for a close up look at insects, plants, flowers, and trees. Who knows what we'll discover.
